

MP2 Energy Texas, LLC
RESIDENTIAL ELECTRICITY FACTS LABEL
Farm-to-Market Solar with LocalSun – One Year Plan
Week of: Jul-10-2017

<i>Electricity</i>	Utility Service Area	Average price per kWh Based on Monthly Usage		
		500kWh	1000kWh	2000kWh
	Centerpoint Energy ("CNP")	11.5¢	10.9¢	10.6¢

This price disclosure is an example that is calculated based on (1) a fixed energy rate of 6.8¢ for Centerpoint and (2) all charges from the applicable Transmission and Distribution Provider (TDSP).

Other Key Terms and Conditions

See Terms of Service Statement for a full listing of fees, deposit policy and other terms

<i>Disclosure Chart</i>	Type of Product:	Fixed Rate
	Contract Term:	12 months
	Do I have a termination fee or any fees associated with terminating services?	There is no termination fee for this product.
	Can my price change during the contract term?	Your base energy rate cannot change unless there is a change in law or regulatory rules. The total amount you pay may change based on changes in TDSP charges, sales taxes, reimbursed taxes, law or regulatory rules, which are all passed through at cost.
	If my price can change, how will it change and by how much?	The change in the fixed rate can only reflect the increased costs that are due as a result of change in law or regulatory rules.
	What other fees may I be charged?	Fees not included in the above: Insufficient funds: \$40; Late Fee: 5% of past due balances; Disconnection Notice Fee: \$25; Reconnect Process Fee: \$25. Average prices per Kwh by TDSP stated above do not include applicable state, local or other taxes, or reimbursed taxes passed through at cost.
	Is this a prepay or pay in advance product?	No
	Does MP2 Energy Texas purchase excess distributed renewable generation for this product?	No
	Renewable energy content of this product	100.0%
	The statewide average for renewable content	16.5%
